A versatile software developer specializing in frontend and full-stack development. Proficient in various technologies including React, NextJS, TypeScript, JavaScript, and Dart. Proven track record of enhancing user experiences, optimizing performance, and leading projects to successful outcomes. Always eager to learn and adopt new tech and methodologies.

Technical Skills

Programming Languages: TypeScript, JavaScript, Dart, Go, HTML, CSS

Frameworks: React, NextJS, MaterialUI, Tailwind CSS, Styled Components, Firebase

Tools and other platforms: Redux, Azure, Vercel, GitHub, BitBucket, Axios, Figma

Professional Experience

Company: chebeMCHN

September 2024 - Present

Title: Frontend Developer

- Collaborate closely with product managers and backend developers to create user interfaces in Dart, aligning front-end development with business objectives and technical requirements.
- Translate initial design prototypes into finalized UI components, ensuring a seamless and responsive user experience for smart vending machines.
- Prepare and execute frontend UI development, following best practices to ensure high performance, scalability, and user satisfaction.
- Integrate backend APIs with frontend interfaces to enable real-time communication and smooth functionality between the vending machines and the backend systems.

Company: Frontend Simplified

July 2024 - September 2024

Title: Frontend Developer Intern | [Certificate](#)

- Transformed a static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels, improving user experience and content presentation.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing, making access to content easier and more dynamic.
- Utilized Git version control and the GitHub interface to work in a virtual and collaborative team environment.

Company: Self-Employed

May 2024 - Present

Title: Freelance Web Developer

- Delivered 3 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript, and React best practices.
- Improved website performance by compressing, caching, and lazy loading images and components.
- Included SEO, responsive, multi-platform, and hosting support, enabling their website to be used by any browser or device in the world.
