Brandon Buhr

SOFTWARE DEVELOPER

Profile

Passionate and results-driven Software Developer with extensive experience in JavaScript, C#, Go, React, Next.js, TypeScript, and Tailwind CSS. Proven track record of developing dynamic, high-performance web applications with a focus on user experience and responsive design. Adept at leveraging modern development frameworks and tools to deliver scalable and maintainable code. Seeking a challenging role to contribute innovative solutions and drive technological advancements in a forward-thinking organization.

Employment History

Software Developer, Green Bay

MAY 2024

- **Full-Stack Development**: Created a full-stack video conferencing app with Next.js, TypeScript, and Tailwind CSS, featuring secure login, meeting creation, screen sharing, and video recording capabilities.
- **E-commerce Application**: Developed an e-commerce library app using React, JavaScript, HTML, and CSS, implementing a user-friendly interface and seamless user experience.
- **API Integration**: Built a weather app utilizing JavaScript and React, integrating APIs to fetch and display real-time weather data.
- **Computer Science Proficiency**: Demonstrated extensive knowledge of computer science theory, including data structures and algorithms, to optimize application performance.

Sales Representative, Cellular Sales, Green Bay

MARCH 2022 — MAY 2024

- **Data Analysis**: Analyzed customer data to identify key trends and insights, informing effective sales strategies and driving customer engagement.
- **Marketing Campaigns**: Developed and executed creative marketing campaigns that increased brand awareness and boosted sales performance.
- **Sales Presentations**: Delivered compelling sales pitches, effectively communicating the benefits of various products and services to potential customers.

Networking and Installation Technician, Prince Telecom, Kaukauna

JUNE 2021 — JANUARY 2022

- **Blueprint Interpretation**: Read and interpreted blueprints and schematics to ensure accurate installation of networking components.
- **Problem-Solving**: Diagnosed and resolved installation and operational issues promptly, minimizing disruptions to customer service.
- **Network Configuration**: Installed and configured networks and networking equipment, ensuring optimal performance and reliability for end-users.
